ADDRESS

West Rembo, Taguig City

PRIMARY NUMBER

0977-446-9490

EMAIL

deocampo.arbelldonor@gmail.com

BIRTH DATE

October 16, 2001

SECONDARY NUMBER

0931-181-8730

NATIONALITY

Filipino

Objective

Full-stack developer with hands-on experience in frontend and backend development, focused on building scalable, maintainable applications while continuously learning and adopting modern technologies.

Experiences

Full-stack Developer (Part-time, Remote)

Tarlac Capitol

December 2025 - February 2026

Brgy. San Vicente, Tarlac City, Tarlac

- Managed cloud infrastructure and billing for DigitalOcean, Cloudflare, and Hostinger, ensuring uninterrupted service and improving security through credential updates and account management.
- Designed backend prototype for a Point of Service (POS) system integrated with the TPH API, implementing initial logic and integration structure for future expansion.
- Developed frontend prototype and core database schemas for the POS system to support early-stage application planning and concept validation.
- Participated in project planning sessions for the SDN App Project, providing technical inputs and documentation to support project feasibility and requirements.
- Transferred and synchronized files from legacy servers to client servers, ensuring seamless migration and data continuity.

Backend Developer

PrimeX Ventures Inc.

August 2025 - November 2025

Brgy. Sapalibutad, Angeles City, Pampanga

- Developed and extended RESTful APIs using Laravel to support new and client-requested features across multiple systems
- Built and maintained APIs used by kapitan.ph, barangay.org.ph, and mayap.ph to support frontend workflows.
- Optimized database queries and API responses to improve performance and data reliability.

Frontend Developer

PrimeX Ventures Inc.

April 2025 - July 2025

Brgy. San Vicente, Tarlac City, Tarlac

- Developed a SaaS-based system called kapitan.ph using Nuxt 3, focusing on scalable architecture and reusable components.
 - Built barangay.org.ph using Nuxt 3, integrated with kapitan.ph to share data and system functionality across platforms.
 - Maintained and enhanced an existing client-specific system, mayap.ph, built with Vue 2.
 - Built responsive and maintainable UI components using Tailwind CSS while ensuring cross-browser compatibility.
-

Skills

Programming Languages / Paradigm

Java, TypeScript, JavaScript, PHP, Python, C++, OOP, Functional

Backend Development

Spring Boot, Express JS, Laravel, MVC, JWT, Security, Stateless Authentication, Authorization, RESTful API, Input Validations, Error handling & Logging

Frontend Development

Angular, Next JS, Tailwind CSS, Daisy UI, RESTful API integration, State Management, Form Handling & Validation, Routing & Navigation, Component-Based

Database / Migrations

PostgreSQL, MySQL, H2, SQLite, Prisma, Flyway

Deployment / Cloud

AWS (EC2 - Linux, S3, RDS), Digital Ocean (Droplets - Linux, Spaces, Databases), Netlify, Render

Other Tools

VS Code, IntelliJ IDEA Community Edition, Postman API, PNPM / NPM, Node JS, Git, GitHub, Maven, Vite, pgAdmin, MySQL WorkBench, Trello, ChatGPT, GitHub Copilot

Certificates

National Certificate III in Web Development

Issued: October 2025 | Expires: October 2030

National Certificate II in Computer System Servicing

Issued: February 2025 | Expires: February 2030

Certificate of Training in Java Programming - NC III

Certificate of Completion in Master Spring Boot 3 & Spring Framework 6 with Java

Education

ICCT COLLEGES FOUNDATION INC.

Bachelor of Science in Computer Science

2022 - 2025

Cainta, Rizal

MINDTECH TRAINING AND DEVELOPMENT INSTITUTE INC. | TESDA

Computer System Servicing - NC II | 47 days

October 2024 - December 2024

City, Province

SOUTHERN LUZON TECHNOLOGICAL COLLEGE FOUNDATION, INC. | TESDA

Java Programming - NC III | 35 days

August 2023 - October 2023

City, Province

AMA COMPUTER COLLEGE LA UNION

ICT Programming - SHS

2019 - 2022

San Fernando City, La Union
